AI PATTERN MATCH PREDICTOR™
QUICK OVERVIEW

01 HISTORICAL MATCH
Finds a similar historical pattern from the past.

02 PAST OUTCOME
Shows what happened after that old pattern.

03 CURRENT PATTERN
Compares that structure with the current live chart.

04 EXPECTED NEXT MOVE
Displays a possible next move when the match is strong enough.

IMPORTANT NOTE
Match % measures similarity, not certainty.

DASHBOARD FIELDS EXPLAINED

MATCH	Similarity score (0–100%) and quality grade (HIGH / GOOD / MODERATE / LOW).
MATCH DATE	When the historical match occurred (on the chart).
PAST RESULT	What happened after the old pattern (e.g. +3.15% or -0.1%).
CURRENT PATTERN	How many recent candles are being analysed (e.g. 30 BARS).
FORECAST	Bullish, bearish or neutral outlook (▲ BULLISH / ▼ BEARISH / ■ NEUTRAL).
EXPECTED MOVE	Projected outcome based on the match (e.g. +4.18% or -0.05%).
NEXT	Forecast window in bars (e.g. 20 BARS).
STATUS	Whether the setup is ready to review (READY / SEARCHING / NO MATCH).

PRO TRADER TIP

Higher match scores (e.g. 70%+) with GOOD or HIGH grades can help you focus on cleaner, higher-probability forecasts. Always consider the broader market context.

Get the most from AI Pattern Match Predictor™ by VIP Algos

1 CHOOSE YOUR MARKET & TIMEFRAME

Open the indicator on your preferred market (e.g. forex, crypto, indices, gold) and select the timeframe that fits your trading style.

2 WAIT FOR A VALID FORECAST & READY STATUS

Let the indicator complete its analysis. Look for the STATUS to show **READY** and a forecast to be displayed.

3 CHECK THE MATCH %, GRADE & DIRECTION

Review the pattern match percentage, the grade (e.g. **GOOD** or **MODERATE**) and the forecast direction (**BULLISH** or **BEARISH**).

4 COMPARE CURRENT WITH HISTORICAL MATCH

Look at the current pattern on the live chart and the historical match to see how similar the price structure is.

5 USE EXPECTED NEXT MOVE WITH YOUR CONFIRMATION

Consider the expected next move together with your own price-action confirmation and proper risk management.

6 USE ALERTS TO MONITOR UPDATES

Set up alerts in the indicator settings to be notified when new forecasts are available or when the current forecast changes.

BEST PRACTICES

- Higher-quality matches can help you focus on stronger setups.
- Neutral or weak forecasts can mean patience is better.
- Use the tool across forex, crypto, indices, and gold.
- Treat the forecast as a planning tool, not a guarantee.
