READING THE GOLD DASHBOARD

UNDERSTANDING WHAT EACH DASHBOARD READING MEANS.

GOLD STRENGTH

A normalized score that helps show whether Gold is currently stronger, weaker, or more neutral.

GOLD BIAS

Shows the current directional lean of Gold based on the engine's confirmed read.

MOMENTUM

Helps show whether Gold momentum is building, fading, or staying steady.

USD PRESSURE

Adds extra context because a weaker USD can support Gold, while a stronger USD can create pressure.

XAUUSD	GOLD CHART OK	VIP ALGOS	✦ GOLD ENGINE

SESSION & VOLATILITY

Shows the active trading session and the current market activity backdrop.

ZONE LOCATION

Shows where price is sitting relative to the active Gold zones.

SETUP QUALITY

A structured quality score that summarizes multiple factors into one cleaner reading.

WHAT TO WATCH

A simple summary line that helps keep the next focus clear.

HOW TRADERS OFTEN USE ZONES

- 1 Wait for price to approach an active zone
- 2 Watch for rejection or supportive price action
- 3 Use the dashboard for added context
- 4 Stay selective and let the setup develop

VIP Algos - XAUUSD Gold Strength Meter

01 BUY GOLD ZONE

A confirmed support area that may attract buying interest when price returns into the zone.

02 SELL GOLD ZONE

A confirmed resistance area that may attract selling pressure when price revisits the zone.

03 ZONE STRENGTH

The percentage shown inside each zone is a structural quality score, not a guarantee.

04 PRICE REACTIONS

Shows how many confirmed reactions the zone has already produced.

05 MIDDLE AREA

A visual midpoint between the active zones that helps show where price sits in the broader range.

06 ZONE LOCATION

The dashboard also tells you whether price is near the buy zone, sell zone, or between zones.

-  Zone Extension
-  Strong Zone Threshold

GOOD STARTING POINTS

These settings work well for most users and markets:

Gold Strength Timeframe:	Auto
Gold Engine Speed:	Balanced
Use USD Pressure:	On
Show Dashboard:	On
Show Gold Zones:	On

03 DASHBOARD & VISUALS

Show or hide the dashboard, change its size and position, and control zone text, middle area, glow, and dashed borders.

-  Show/Hide Dashboard
-  Dashboard Size & Position
-  Zone Text Settings
-  Middle Area Visibility
-  Glow Effects
-  Dashed Borders

04 ADVANCED GOLD ENGINE

Fine-tune the strength sensitivity, fast and slow lengths, trend length, smoothing, and volatility normalization.

-  Strength Sensitivity
-  Fast Length
-  Slow Length
-  Trend Length
-  Smoothing
-  Volatility Normalization

TIP

Start simple, then only adjust advanced settings when you want a more personalized chart experience.

BEST PRACTICE WORKFLOW

A CLEARER PROCESS
BETTER RESULTS

1

Check the dashboard first

Get an overall view of gold strength, bias, key levels and current conditions.

2

Note the Gold bias and strength

Understand the current direction and strength before looking for opportunities.

3

Watch where price sits relative to the zones

Identify if price is in, near, or outside the buy/sell zones.

4

Use reactions and alerts for timing

Let the indicator alerts and zone reactions help with more precise entries.

5

Stay selective and manage risk carefully

Focus on higher quality setups and always use proper risk management.

The indicator is designed to help bring more structure and context to Gold analysis. Use it as part of a clear trading process.
