AI TRADING SWING PREDICTOR™

QUICK OVERVIEW

Understanding the main visual components.

1 HISTORICAL SWING CURVES

The blue and purple swing curves help map completed market swings, making it easier to see the overall structure and rhythm of price.

3 BUY & SELL MARKERS

BUY SELL

BUY and SELL markers identify confirmed swing points after the indicator's confirmation rules are met.

6 TARGET 1 & TARGET 2

TARGET 1
TARGET 2

Target 1 and Target 2 provide structured review levels based on the AI projection. Use them as reference points, not guarantees.

AI TRADING SWING	PREDICTOR™
AI NEXT MOVE	PRICE MAY MOVE DOWN ↘
SETUP TYPE	CONTINUATION
SETUP STRENGTH	GOOD 67/100
MARKET TREND	BEARISH ↘
CURRENT SWING	FALLING · EXTENDED
TARGET 1	0.58426
TARGET 2	0.58108
WHAT TO WATCH	WATCH FOR MOVE LOWER

2 LIVE GHOST SWING

The live ghost swing shows the current, unfinished move, giving a real-time view of the developing swing.

4 AI NEXT MOVE

AI NEXT MOVE ↘

AI NEXT MOVE shows a projected scenario based on current conditions. It's a forward-looking indication, not a certainty.

5 INDICATOR DASHBOARD

The dashboard summarises the next move, setup type, strength, market trend, current swing, targets, and what to watch — all in one place.

UNDERSTANDING SWING CURVES

HOW TO READ MARKET SWING STRUCTURE

01 HISTORICAL SWING CURVES
Show completed upward and downward swing legs, helping you visualise market structure.

02 SWING COLOURS
Blue curves represent rising swing phases.
Purple curves represent falling swing phases.

03 SWING POINTS
Dots and BUY/SELL labels highlight confirmed turning points once the swing is confirmed.

04 LIVE GHOST SWING
The live ghost swing helps monitor the current developing leg as it forms.

05 SWING SENSITIVITY
Changes how reactive the structure appears.
Lower sensitivity shows more swings.
Higher sensitivity focuses on larger moves.

BEST PRACTICE: combine swing structure with trend context and candle behavior.

READING AI NEXT MOVE & TARGETS™

USER GUIDE

Turning swing data into a structured outlook. Learn how to read the AI NEXT MOVE projection, understand setup details, and use the target levels for a more informed trading plan on TradingView and MetaTrader (MT5/MT4).

KEY CONCEPTS

01 AI NEXT MOVE
Projects a possible directional path based on the indicator's swing and structure logic.

02 SETUP TYPE
May describe a CONTINUATION or a POSSIBLE TURN.

03 SETUP STRENGTH
Helps indicate how strong the current setup appears within the model.

04 TARGETS
Target 1 is the first projected objective. Target 2 is the extended objective.

05 WHAT TO WATCH
Helps simplify the current focus.

06 IMPORTANT
Forecasts are scenarios for structured review and should not be treated as guaranteed outcomes.

SAME CLEAR INSIGHTS, ANYWHERE

DASHBOARD FIELDS EXPLAINED

AI NEXT MOVE	Shows the projected next price move direction (UP or DOWN).
SETUP TYPE	Identifies the type of setup (e.g., Continuation or Reversal).
SETUP STRENGTH	Rates the quality of the setup from 0–100 (higher = stronger).
MARKET TREND	Shows the overall trend context (Bullish, Bearish or Sideways).
CURRENT SWING	Indicates the active swing state (Rising or Falling, and status).
TARGET 1	First projected target level based on the current swing.
TARGET 2	Second projected target level for extended moves.
WHAT TO WATCH	Key price area or condition to monitor next.

CORE FEATURES

POWERFUL TOOLS. A CLEARER PICTURE.

HISTORICAL SWING CURVES
Past swing curves show price structure, helping you see the bigger picture and recognize recurring patterns more easily.

LIVE GHOST SWING
The developing (ghost) curve gives a real-time view of the current swing as it forms, helping you stay ahead of potential moves.

SWING POINT DOTS
Clear dots mark key swing highs and lows, making turning points easy to identify on your charts.

BUY / SELL MARKERS
Visual markers highlight potential swing low (BUY) and swing high (SELL) opportunities, keeping things simple and clear.

POTENTIAL TURN WATCH
Alerts you to key areas to watch for a potential move higher or lower, based on the current setup and structure.

ALL-TIMEFRAME USE
Works seamlessly on any timeframe — from 1 minute to daily and beyond — giving you consistent insights across markets and strategies.
